Policy Statement

The policy document is aimed at all staff, students, parents/carers, directors and agencies working with the company, and has been drawn up in consultation with all relevant parties.

The company will not tolerate the misuse of drugs within its grounds and by students representing the company out of school hours or on any school organised trips or visits.

This applies to also to any adults or persons who may come onto the company sites and may be intoxicated and/or in possession of illegal drugs. At World Alternative Education Limited we recognise that some of our students and parents need a variety of medicines and appropriate arrangements are made to enable the correct distribution of these. *Please refer to the students with medical needs policy.*

World Alternative Education Limited drugs policy is part of our overall approach to health and well being. We aim to ensure that students recognise the importance of what they eat and drink and the effect this can have. Self respect and a healthy lifestyle are all part of an approach which will enable our students to make the right choices for themselves and their families now and in the future.

It is important to note that the company see inappropriate drug use by students as something to be challenged and changes in behaviour sought through support and counselling wherever possible. It is likely however, that any student found to have been distributing and/or using illegal drugs, whether or not in return for payment, will be excluded from the program and the host school contacted.
